

cdh6. 3. 2安装部署

官网参考文档

https://docs.cloudera.com/documentation/enterprise/6/6.3/topics/install_cm_server.html

```
wget https://archive.cloudera.com/cm6/6.3.1/redhat7/yum/RPM-GPG-KEY-cloudera
```

```
sudo rpm --import RPM-GPG-KEY-cloudera
```

```
sudo yum install oracle-j2sdk1.8
```

```
sudo yum install cloudera-manager-daemons cloudera-manager-agent cloudera-manager-server
```

```
wget https://dev.mysql.com/get/Downloads/Connector-J/mysql-connector-java-5.1.46.tar.gz
```

```
tar zxvf mysql-connector-java-5.1.46.tar.gz
```

```
sudo mkdir -p /usr/share/java/
```

```
cd mysql-connector-java-5.1.46
```

```
sudo cp mysql-connector-java-5.1.46-bin.jar /usr/share/java/mysql-connector-java.jar  
/opt/cloudera/cm/schema/scm_prepare_database.sh -h172.20.85.200 --scm-host  
172.20.85.106 mysql cdh632_cm scm Jh7asijk3s9oIuy
```

```
CREATE DATABASE cdh632_metastore DEFAULT CHARACTER SET utf8;
```

```
CREATE DATABASE cdh632_cm DEFAULT CHARACTER SET utf8;
```

```
CREATE DATABASE cdh632_rm DEFAULT CHARACTER SET utf8;
```

```
CREATE DATABASE cdh632_hue DEFAULT CHARACTER SET utf8;
```

```
CREATE DATABASE cdh632_oozie DEFAULT CHARACTER SET utf8;
```

```
CREATE DATABASE cdh632_sentry DEFAULT CHARACTER SET utf8;
```

```
createrepo .
```

创建.repo

```
yum clean all
```
